Re: WEG OSRO #075

To Whom it May Concern

Weavertown Environmental Group is headquartered outside of Pittsburgh, Pennsylvania with facilities in Carnegie and Cecil Pennsylvania, East Liverpool and New Philadelphia, Ohio, Ashland, Kentucky and Houston, Texas.

This letter is to advise you that for the calendar year 2014, Weavertown Environmental Group (WEG) has met the equipment deployment exercise requirements in accordance with the National Preparedness for Response and Exercise Program (NPREP) guidelines. WEG has met this requirement by participating in equipment deployment exercises, actual spill response and training.

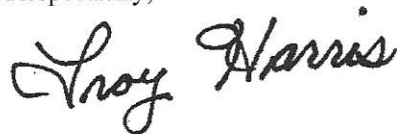

Our response equipment has been deployed on numerous occasions throughout the year, which has exceeded the minimum NPREP required amount for each type. This has been accomplished by conducting training exercises and through actual spill response. This response equipment includes boats, containment boom, skimmers, and vacuum trucks.

Weavertown's response equipment has been properly maintained through inspections prior to deployment, and response personnel have received the appropriate training requirements to handle this equipment.

Additionally, Weavertown's OSRO number is 075.

Should you require any additional information, please contact me at (724) 746-4850.

Respectfully,

Troy Harris
Director, Corporate Health, Safety and Training
