Security Record Retention Requirements: 3 years USCG/DHS

Boom Deployment: 10-5-2017 08:00 - 09:30

Type/Duration: Drill Exercise/ 1 hr. 30 min.

Scenario: Petroleum Crude Oil Solution on river. Oil coming from containment pond draining into the river causing a sheen. River moving at 2mph, winds at 1mph sw. Wind is blowing product down river and to the bank. Boom to be placed from boat ramp area at a 45 degree angle to allow skimmer and trucks to remove sheen.

Actions that need to take place:

- Shut down all operations.
- Verify that no one is injured.
- Call our Operations Control Center.
- Verify that all valves are shut, call response team to assist with cleanup
- Call Willow Island L&D, plants to have them shut down water intake system.
- Notify USCG, NRC, Weavertown (OSRO), BBU (cleanup)
- Get boat on river in a timely manner, place boom in river, place absorbent booms on river bank to keep product away from land

Equipment used:

- Boat
- Boom
- Absorbent booms
- Pads
- Truck
